

Carshalton Boys Sports College Parent Bulletin

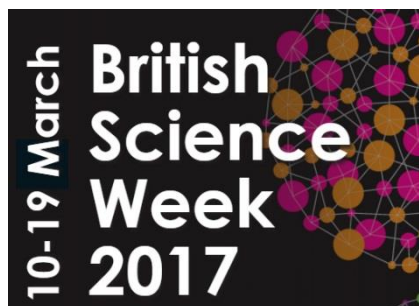

No.31

This week is Blue Week

10th March 2017

Science week 2017

Next week we will be celebrating British Science Week. KS3 students will be receiving a slight change to their science lessons. The topic of the week is '**Change**' and so a number of types of change will be investigated.

Tutors will be sent a short science based activity each morning to provoke class discussions. Each will take around 5 minutes.

Over the week a number of activities will be run during morning breaktime in the playground. Feel free to come and watch with the boys but most importantly don't panic if you hear a few bangs!

Periodic Table Scrabble competition. Design a word using the letters of the periodic table. We are working with the Art department and hope to create large scale versions of the winning designs for the science block.

Day	Break time – pop up science	Where
Monday	Loud bangs- Hydrogen balloons Water into wine	Playground
Tuesday	Whoosh bottle Thermite reaction	Playground S11
Wednesday	Musical fire	S11- Loud
Thursday	Colour changing bottles Non Newtonian liquid- corn-starch speaker	Playground S11
Friday	Baking soda and vinegar- Bucket Coke and mentos Exploding tin (lots of new candles, icing sugar)	Playground

Year 9 Assembly – WaterAid

Jeremy Heath from SES Water came in & spoke to the Year 9s about WaterAid and the difference that the charity makes around the world, with a particular focus on Bangladesh.

Jeremy is an engineer who was invited to see the work that is being done by WaterAid in Bangladesh.

The students were really engaged in the talk & video clips. It emphasised the little effort and belief and trust that is required to have a big impact on communities, particularly in slum areas.

It also encouraged them to be reflective of the simple things that we take for granted.

Great food (water!) for thought for the students first thing on a Monday morning!

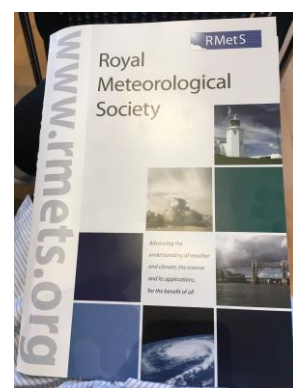

RMets Climate Change Conference 9th March 2017

Yesterday the year 12s and I were lucky enough to have attended a very engaging, challenging conference on Climate Change. We had talks from specialists including Dr Tim Lane who has been studying the changes in the ice caps in Greenland & Professor Terry Callaghan (the founder of INERACT) who has been researching changes in the Arctic for over 50 years.

The talks were insightful and engaging and then there was a 'break out' session whereby smaller groups of students were able to probe and discuss issues and opinions with these specialists.

It was a unique and special experience, added by the bonus choir performance during the break & Galileo thermometers for attending!

Despite it being a late finish (6.30pm) it was a great experience and fit in well with the new A Level Specification!

Year 12 Regeneration Fieldwork

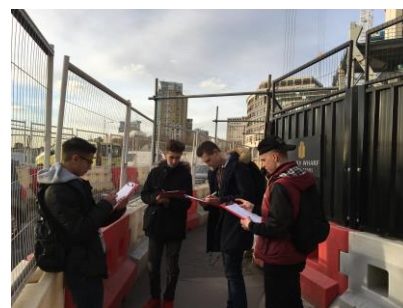

On Tuesday 7th March instead of a double lesson in the classroom we went & explored the regeneration around London Docklands.

We began our trip by visiting the Docklands Museum. This was some good secondary data collection, which set us up well for the primary data collection that followed.

For the primary data collection we were blessed with beautiful blue skies and mild temperatures. The students collected a range of primary data including business surveys, shopping surveys, EQAs, photos & even managed to interview some members of the public.

They enjoyed engaging with the environment that we have spent a considerable time studying in the classroom.

Lauren

Little Shop of Horrors

Preparations are already well underway for our next whole school production – **Little Shop of Horrors** which tells the story of a giant plant which feeds on human blood! Hayley is busy planting bamboo in order to transform the stage into a florist. If you are green fingered and would like to contribute some plants please let myself or Hayley know. Thank you Rosalind

GCSE Drama Exams

With just three weeks remaining until the Y11 Drama Practical Exams the boys performance work is on fire! Please drop into either W14 or W03 and take a look. Rosalind

Sixth for English Literature Conference

On Monday 6th March, 21 of the A Level English students went to the Dorian Gray Literature Conference at City Temple, Holborn. Geared around University-style lectures that looked at one of their core texts, the group of Year 12 and 13 students were fantastic throughout and have taken a great deal from the day. Thanks to Allie, as well as the rest of Admin and Finance, for their help in organising. OWH

Historical Association

Taylor Tumbridge is taking part in the national final of the Historical Association's speaking competition this Saturday, having won the regional final several weeks ago. This very prestigious event is taking place at the Imperial War Museum and the theme is 'How the First World War impacted the local community'.

Please wish him well if you see him around school.

Thanks
History Department

PRE – Abortion & Life Visit

As a change to their usual timetabled lessons PRE students from Year9, Year 10 and the 6th form were visited by Peter Sullivan, Education Officer for 'Life'. Peter gave a presentation followed by some questions on the subject of abortion and the value of Life. Our PRE GCSE students are studying matters surrounding life, death and the value of life. Peter's charity is a secular group and was therefore able to provide our boys with a unique viewpoint. In his presentation Peter sensitively outlined the position of his charity, who seek to provide support to women who are pregnant as an alternative to abortion, as well as explore reasons for, and the argument in favour of, a woman's right to have an abortion. Our students were very sensitive to the subject matter, and engaged in a well-informed discussion which has now enriched their GCSE studies.

If you would be interested in the work of Life you can visit their website: <https://lifecharity.org.uk/>

Athletics Assistant Official Training (Level 1)- Thursday 2nd March 2017

Six Sutton Supremo leaders took part in an Athletics Assistant Official Training on Thursday 2nd March 2017. The course involved developing their knowledge of the key responsibilities of an assistant official, measuring times and distances, recording judgements, reporting concerns, communicating to athletes/officials and applying basic rules. All six leaders passed the course and are now qualified as Athletic Assistant Officials.

Please congratulate the boys on their success and I`m sure we are all looking forward to seeing them put their skills into practice on Sports Day this year! *Miss Hendle*

Year 5/6 Basketball Workshop- 6th March 2017- photos attached

On Monday 6th March 2017 the following primary schools **Muschamp, Foresters, Cheam Fields, Hackbridge, Abbey, Nonsuch** attended a basketball workshop held here at CBSC. There were 55 year 5/6 students who attended the event and a total of 20 young leaders from CBSC ranging from year 7-11. The event including a six station circuit teaching pupils the fundamental skills of basketball and followed by 3v3 competitions between the schools. All of the young leaders demonstrated excellent enthusiasm and all showed progression throughout the circuit sessions. The young leaders received fantastic feedback from both the primary schools and Tracey Milbourn who is the Sutton School Games Organiser.

"I was extremely impressed with all the students who lead the activities who were knowledgeable, enthusiastic and encouraging. There were a lot of positive comments from both teachers and supporters. Please pass on my congratulations to the leaders." **Tracey Milbourn**

Please congratulate the following young leaders on their participation.

Jay Lawrence-10
Alvin Gasangwa- 10
Trevor ssestongo- 10
Adam Fontinelle- 10
Cameron Watson- 8R
Dylan James- 8R
Karim Meller- 8R
Omar El-Zeftawy- 8M
Jason Quansah- 8
Kwayera Cumberbatch- Wynter- 11
Nathan Hunter- 7W
Kyle Harrison- 9P
Jacob Fontinelle- 8S
Ahorjon Abdullaev- 7E
Will Wilkins- 7F
Jakub Feliks- 7
Raphael Bruce-smith- 7
James Center- 7
Jacob Downer- 7
Sebastian Bassom- 7S

Many thanks,

Jessica Hendle
